SCAN TO LEARN HOW TO EDIT USER ACCESS LEVELS

NEXT STEP: APP

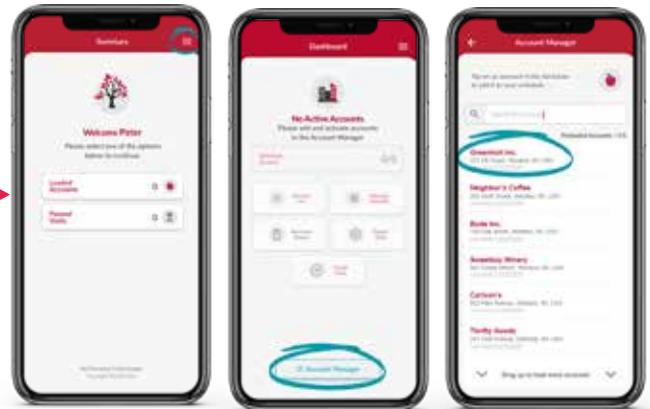

1 **DOWNLOAD** the **Bell Sensing APP** on a mobile device or tablet

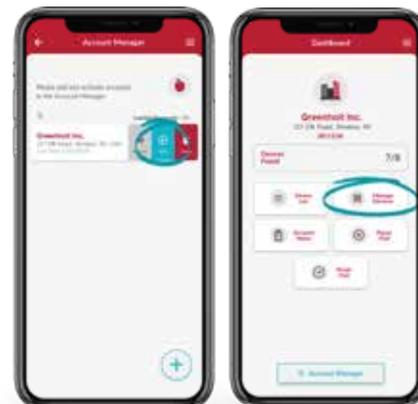

2 Log in to app with email and password used for the portal

3 Select **Loaded Accounts** and choose the account recently created in the portal

4 Select desired account and press **Start** to begin service visit

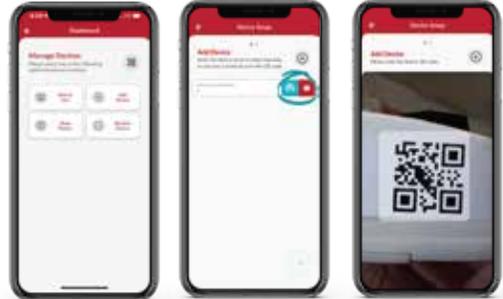

5 On the home dashboard, select

START SENSING: ADDING DEVICES

- 1 After selecting  press 
- 2 Select Camera icon  to scan the QR code on the 
- 3 Wake up the  by continually tapping the sensor or opening snap-traps (reference images below for all device types) then immediately select the blue arrow to activate.
- 4 Name device, enter device location, add bait if using a bait station, and add any custom notes to that device and press the blue check mark to add

TECHNICIAN TIP: Enter the same exact device name for same device types and the number will tick up automatically. Using this tip will only require you to type the device name on the first add. (Example: Device Name – Bait Station 001, the next added same device type will automatically add Bait Station and tick the number up to 002). Do not add a number in the device name field.

- 5 Once all devices are successfully added to the account, ensure to go back to the Account Dashboard and click . Finally, click the blue check mark icon in bottom right hand corner of Finish Visit screen and click  to finish the service visit which will send the data to the cloud to ensure all devices are saved to the selected account

HOW TO WAKE UP DEVICES

PRODUCT LINE UP
